

Ohio Initial Jobless Claims for Sunday, May 3, through Saturday, May 9, 2020

For the week ending May 9, 2020, the Ohio Department of Job and Family Services (ODJFS) reported 51,125 initial jobless claims to the U.S. Dept. of Labor. The number of initial jobless claims filed in Ohio over the last eight weeks (1,169,694) is more than the combined total of those filed during the last three years.

Over these last eight weeks, ODJFS has distributed more than \$2.4 billion in unemployment compensation payments to more than 587,000 claimants. Of the more than 1 million applications the agency has received, 90% have been processed, with only 10% pending.

ODJFS urges individuals to file their claims online, if possible, at unemployment.ohio.gov.

Each claim is important to us, and we recognize the hardship that the COVID-19 pandemic has placed on many Ohio families. We are expanding staff support, working longer hours and adding more technological capacity so that we can serve Ohioans as quickly as possible.

All eligible Ohioans will receive their unemployment benefits – and any delays in processing their claims will not reduce the amount received. ODJFS will not rest until all eligible Ohioans are served.
